# ORGANIC & RECYCLED

UNIFORM COLLECTION

MAKE A BETTER CHOICE

# ETHICAL POLICY

PEOPLE, PRODUCTION & THE PLANET

## ETHICAL PRODUCTION

Our manufacturing facilities and supply chains are certified by some of the world's leading organisations. This allows us to monitor and assess workplace standards by working closely with our suppliers encouraging continuous improvements.

## PRODUCT CERTIFICATION

Selected products carry certifications to back up our sustainability claims.

## INITIATIVES & ASSOCIATIONS

We are proud members of Better Cotton™ and we support Fairtrade® farmers by purchasing their cotton.

# CONTENTS

Ethical Policy	2
Our Sustainability Journey	4 - 5
Better Cotton™	6 - 7
Certified Organic Cotton	8 - 9
Fairtrade Certified Cotton	10 - 11

Spun Dyed Production	14 - 15
Aprons	16 - 27
Tees, Polos, Shirts	28 - 33
Shorts	34
Outerwear	36 - 45

At Premier, we are committed to introducing better materials and processes into our supply chain to minimise our impact on the environment.

As lots of companies look for ways to operate more responsibly, the demand for products made with less impact on the environment increases.

We have developed a range of products that respond to this demand, whilst continuing to be stylish, durable and competitively priced.

# OUR SUSTAINABILITY JOURNEY

## RESPONSIBLE COTTON SOURCING

Where we can, we source cotton that has been grown organically, using less water and without toxic pesticides.

## REUSING PLASTICS

The recycled polyester in our garments comes from post-consumer raw material, like plastic bottles.

## SOCIAL COMPLIANCE

The people who make our garments work in factories that are audited to ensure ethical, social and environmental standards are maintained.

## BETTER PACKAGING

We are reducing the amount of packaging for our products and use recycled, compostable and bio-degradable solutions where we can.

## GREENER TRANSPORT

We are striving to improve the way we import our goods into Europe and are working with key transportation partners to monitor and reduce the CO<sub>2</sub> levels we produce.

## MEMBERSHIPS & ASSOCIATIONS

We are a members of Better Cotton™ and also support Fairtrade® farmers by purchasing their cotton.

## COMMUNITY ENGAGEMENT

It's important to us to give back, which is why we donate and sponsor charities that benefit the communities where our products are made.

## SHARED VALUES

Our network of distributors and official resellers share our values for a more sustainable supply chain and are trusted to promote these values.

For more information about our sustainability journey, visit our website, [www.premierworkwear.com](http://www.premierworkwear.com)

We are members of **Better Cotton™** and committed to sourcing 50% of our cotton as Better Cotton™ by 2026.

## WHAT IS BETTER COTTON™?

Better Cotton™ is the world's leading sustainability initiative for cotton. Their mission is to help cotton communities survive and thrive, while protecting and restoring the environment.

Better Cotton™ encourages farmers to grow cotton more sustainably, improving soil health, water management, greenhouse gas emissions and climate resilience.

## OUR SOURCING STORY SO FAR

In 2022 Premier sourced over **91 tonnes** of Better Cotton™ and this had a positive impact in the areas below.

An estimated **42.5 million litres** of water saved.

Better Cotton™ farmers benefitted from an estimated **18,000 EUR** additional profit.\*

An estimated **27kg** of pesticides were avoided.

\*Better Cotton farmers experience profit increases for a variety of reasons, most commonly due to increased yields and/or optimised used of inputs (such as irrigation water, pesticides or synthetic fertilizer).

## CERTIFIED ORGANIC COTTON & ORGANIC COTTON IN-CONVERSION

Some of our styles are made from - or include, organic cotton and are certified to the **Organic Content Standard (OCS)**.

Our PR102 cotton bib apron is made from cotton that is organic in-conversion.

## WHAT IS ORGANIC COTTON?

Organic cotton crop cultivation is better for the environment because it requires considerably less water than conventional cotton and is grown without the use of toxic pesticides and synthetic fertilizers.

## WHAT IS THE ORGANIC CONTENT STANDARD (OCS)?

The **Organic Content Standard (OCS)** is a voluntary global standard that sets the criteria for third-party certification of organic materials and chain of custody.

The percentage of organically grown material is tracked and verified from source to final product.

Products that display the **Organic Content Standard 100 (OCS 100)** logo contain at least 95% certified organically grown material.

Products that display the **Organic Content Standard In-Conversion** logo contain cotton from farms who are transitioning from conventional to organic crop production.

The Fairtrade Cotton Mark displayed on a garment means that the cotton element has been sourced from Fairtrade certified producer organisations.

Fairtrade certify producer organisations who meet the criteria set out in the Fairtrade Standards for cotton production.

## WHAT IS FAIRTRADE COTTON?

Fairtrade supports small-scale farmers to secure fairer prices. They also work with the farmers to address environmental issues by promoting better agricultural practices that help protect biodiversity through the Fairtrade Standards.

When you buy our styles made with Fairtrade Cotton, you are supporting positive change in the cotton industry.

©Fairtrade/Ranita Roy/Fairpicture

## RECYCLED MATERIALS

Selected styles are made from – or include, recycled polyester, recycled nylon or recycled cotton and are certified to the **Global Recycled Standard (GRS)**.

## WHAT IS THE GLOBAL RECYCLED STANDARD (GRS)?

The **Global Recycled Standard (GRS)** set the criteria for third-party certification of recycled materials and chain of custody. The percentage of recycled content is tracked and verified with social and environmental requirements relating to processing and chemical use.

Certified by Control Union  
CB-CUC-1119398

Products that display the **GRS** logo contain at least 50% recycled material.

Certified by Control Union  
CB-CUC-1119398

Products that display the **RCS Blended** logo contain between 5 - 94% recycled material.

## RECYCLED COTTON

Our 'Regenerate' Apron is made from offcuts of scrap denim from textile factories or from pre-loved consumer clothing like jeans.

## RECYCLED POLYESTER

Our softshell jackets and gilets are made entirely from post-consumer plastic bottles.

## RECYCLED NYLON

Our padded jackets and gilets are made from recycled nylon yarn. The waste nylon yarn is collected from textile factories, garment manufacturers and households.

As part of our sustainability efforts, we are now manufacturing clothing that has been spun dyed.

## WHAT IS SPUN DYED/ SPUN DYEING?

In order for the fabric in our clothing to have colour, there is a process of colour dyeing that takes place during production. Spun dyeing reduces the environmental footprint when compared to traditional methods.

## PERFORMANCE BENEFITS

Spun-dyed garments benefit from what is known as excellent colour fastness, meaning that the colour won't fade in UV light and they can withstand washing up to 60°C, without suffering any long-term colour degradation.

THE METHOD OF SPUN DYEING USES:-

**66%**  
LESS WATER

**75%**  
LESS CHEMICALS

**60%**  
LESS CO<sub>2</sub>
